Sicherheitshinweise

Bitte die folgenden Sicherheits- und Montagehinweise beachten und diese Anleitung aufmerksam, auch wenn das Leuchte schon montiert ist.

Allgemeine Anweisungen:

- Exaktliche Anschlüsse dürfen nur von fachkundigem Personal ausgeführt werden.
- Der Hersteller übernimmt keine Verantwortung für Verletzungen oder Schäden, die Folge eines unrichtigen Beschadens sind (z.B. Oberflächenschäden).
- Im Produkt/ Vor Beginn der Montagearbeiten die Netzleitung spannungsfrei machen (Sicherung heraus bzw. Schalter auf AUS stellen).
- Leuchten dürfen nur für den vorgesehenen Zweck verwendet werden. Innerleuchten dürfen nicht im Außenbereich verwendet werden.
- Vergewissern Sie sich, dass alle Teile vollständig vorhanden sind, bevor Sie mit der Montage beginnen.
- Leuchten nur mit einem weichen, trockenen Tuch reinigen.

FIN

Die LED -Lichtquelle ist nicht austauschbar.

Ohjeetiedotukset

- Das Betriebsgerät ist nicht austauschbar.
- Bevor Sie mit der Reinigung beginnen, die Netzleitung spannungsfrei machen (Sicherung heraus bzw. Schalter auf AUS stellen).
- Leuchten dürfen nur für den vorgesehenen Zweck verwendet werden. Innerleuchten dürfen nicht im Außenbereich verwendet werden.
- Vergewissern Sie sich, dass alle Teile vollständig vorhanden sind, bevor Sie mit der Montage beginnen.
- Leuchten nur mit einem weichen, trockenen Tuch reinigen.

Hinweise zum Umweltschutz

Diese Leuchte darf am Ende ihrer Lebensdauer nicht über den normalen Hausabfall entsorgt werden, sondern muss in einem Sammelpunkt für das Recycling von elektrischen und elektronischen Geräten abgegeben werden. Das Symbol auf dem Produkt/ der Verpackung zeigt die getrennte Sammlung oder die Verpackung weist darauf hin. Die Werkstoffe sind gemäß ihrer Kennzeichnung wiederverwertbar. Mit der Wiederverwendung, der stofflichen Verwertung oder anderen Formen der Verwertung von Abfällen leisten Sie einen wichtigen Beitrag zum Schutz unserer Umwelt.

Bitte entfernen Sie bei der Gemeindevernichtung die zuständigen Entsorgungsstelle.

Hinweise zur Batterieentsorgung

Gebrauchte Batterien dürfen nicht im Hausabfall entsorgt werden, weil sie giftige Bestandteile und Schwermetalle enthalten können, die umweltschädlich und gesundheitsschädlich sein können. Geben Sie leere Batterien in eine geeignete Recycling-Einrichtung.

Batterien müssen vor der Entsorgung entnommen und fachgerecht entsorgt werden.

GBR

Safe instructions

Please note the information contained in these instructions and save this manual, please note the information contained in these instructions and save this manual, please note the information contained in these instructions and save this manual.

General instructions:

- Electrical connections may only be carried out by qualified staff.
- If the product is damaged, do not accept responsibility for injuries or defects caused by improper use of this lamp.
- Attention! Before starting the installation, disconnect the power by turning off the circuit breaker, or by removing the fuse from the fuse box.
- Min to use this lamp for its predetermined function. For example don't mount indoor lamps in outdoor areas.
- Please check all components are complete before installing.
- Don't cover the lamp.
- Don't connect the lamp to power and don't switch it on when it's in packing.
- Plug and connection elements must be given hot during operation. An improper use is the risk of fire and by changing the bulb you can hurt yourself. Always use cool down.

If the external flexible cable or cord is damaged, it must be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.

Please ensure that the specified bulb type and power of bulb is used. The main wiring should be protected (find the bulb symbol and the „max.“ on rating label on or on lamp).

Don't mount the lamp on wet or covered conducting background.

Make sure that the cables or cords are not damaged during installation.

Markings on terminal block: L-phase, N-neutral wire, G -grounding wire.

The given main voltage must not be exceeded.

Plug and connection elements must be free of dirt and stick strengths.

Don't touch bulbs with bare hands.

If silicone piping is enclosed within the luminaire, the piping must be put over the main lead to protect them against heat.

Symbol descriptions:

Protection class (I): This lamp must be connected with its protective conductor (green-yellow wire) to the protective earth-terminal.

Protection class (II): This lamp is double insulated and must not be connected to a protective earth-terminal.

low voltage, safety low voltage

AC - alternating current voltage

HZ frequency (Hertz)

W power in Watt

Minimum distance from the lamp to any lighted object in m. Please don't use the lamp without the glass and if it's broken it must be replaced!

Luminaire designed for use with self-shielded halogen lamps must be used indoors only.

(surface mount) (ceiling) (recessed): Not suitable for direct mounting on the normally flammable surface.

Subtable for direct mounting on the normally flammable surface: no symbol is shown.

Not suitable for covering with thermally insulating material.

IP degree of protection against external influences. Find the corresponding degree of protection on rating label.

Caution, there is a risk of electric shock. Light source coverings should not be opened as conductive parts will be exposed.

The light source can be replaced by an end-user.

The LED -light source can be replaced by an end-user.

The control gear can be replaced by an end-user.

The LED -light source can only be replaced by a professional.
